VOL. XI.

RENO, WASHOE COUNTY, NEVADA, WEDNESDAY, AUGUST 10, 1881.

NO. 112

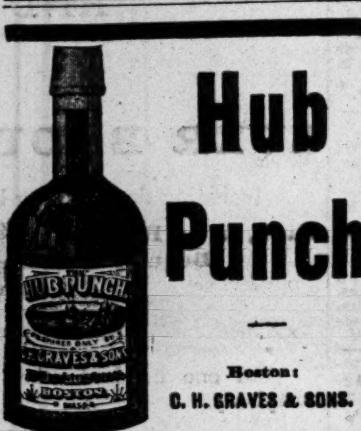

## MISCELLANEOUS ITEMS.

Very hard to realize—Borrowed money.  
A collection of stamps—Applause in the gallery.  
The bump of destructiveness—A railway collision.  
An Indiana revivalist gives a chromo to every convert.  
Affection is the organizing force in the human constitution.  
Life opens with a rattle in the hand and ends with a rattle in the throat.  
Wagner, the composer, affects cats, and the Boston Globe says: "So does his music."  
There are a great many substitutes for tobacco. We know of a man in this country who smokes hams.  
Hoop-skirts are to be revived, and there is a great deal of bustle in the feminine world.—N. H. Reg.  
An illiterate farmer advertised a little while back for a man "to sleep in the house, but to eat his own vitals."  
A tramp out West always gives the name of "Murder," and no justice has been found who would commit him.  
"Don't cut," murmured a sleepy customer in the barber's chair, fresh from an all night poker party, "don't cut; let 'em run."  
Jacob Strauss speaks of the Readjusters' refrain. We know what that is. They refrain from paying the State's debts.—Somerville Journal.  
You can tell a merciful farmer as soon as he stops his team at a post. He takes a blanket off his wife's lap and spreads it over the poor horses.  
The New Orleans Picayune holds that the Police Judge should be a sincere man. So he should in Sinse-nauhty. Here he is a club man.  
"Storage of Force." The Home Secretary tells Col. Henderson that this must mean "concealing a policeman under the kitchen table."—Punch.  
A block of ice which melted at Connersville, Indiana, the other day, was found to contain a frog weighing a quarter of a pound and in good health.  
Babies Badly Mixed.  
Two babies were born in the same house at Oakland, Tenn. The mothers were sisters, closely resembling each other, and the infants were both girls. In the excitement of the occasion the little ones got mixed, and this happened before they were dressed, or in any way marked for identification. There seems to be no way out of the uncertainty, and three months have passed without developing any resemblance to the father in either case; and if the children grow up, as they seem likely to, with the physical characteristics of their mothers, nobody will ever know their exact parentage. The present agreement is to decide the question by lot.

SHILOH'S CATARRH REMEDY. A marvelous cure for Catarrh, Diphtheria, Canker mouth, and Headache. With each bottle there is an ingenious nasal injector for the most successful treatment of these complaints without extra charge. Price 50 cts. For sale by Osburn & Shoemaker, Druggists, Reno.  
Healed His Lung.  
No. 8 Kearney St., April 1st, 1879; Office of Bush & Ralls, dentists.—To the California & Oregon Plaster Company.—Gentlemen: Your Perous plasters are just what I wanted, they have effectively cured my cold. The pain in my left lung has entirely disappeared. I will recommend them to my friends. Respectfully yours,  
R. F. RALLS, D. D.

Be Wise and Happy.  
If you will stop all your extravagant and wrong notions in doctoring yourself and families with expensive doctors or humbug cures, that do harm always, and use only nature's simple remedies for all your ailments, you will be wise, well and happy, and save great expense. The greatest remedy for this is the great, wise and good will tell you, is Hop Bitters—rely on it. See another column.

THE PRESIDENT'S CONDITION.

It is apparent to the thoughtful reader that President Garfield's life is hanging by a mere thread. If the hope and affection of the American people could win the battle it would have been decided long since. He must lie there, however, upon his bed of pain and fight for life. The admiration which has gone out to him for the brave and uncomplaining struggle which he is making, almost equals the gratitude which would thrill in the national heart upon his recovery. It seems as though Garfield was fighting for a million lives instead of one, and there are countless prayers, burdened with hope, for his restoration. Yesterday he wrote his name to show how strong he was. We hope that he may yet write that name at the close of a prosperous and successful administration.

EDITORIAL NOTES.

The London Times has heard of an American named Wendell Phillips, for whom it has got much respect, for it says: "Had it been fashionable in America to exile its disturbing elements, Mr. Phillips would have been picking fishbones in Alaska long ago for his country's good."

Ohio's valuation has increased \$13,000,000 in ten years. This is the effect of having so many of its citizens out of the State on public business. - Lowell Citizen.

The Ruby Hill Mining News copies approvingly the GAZETTE's summary of State finances. The State Press seems to endorse our statements, and they were without doubt correct.

A man giving his name as Swinney, who was employed on the O. R. and N. pile-driver, tried to commit suicide Sunday.

Says the Salt Lake Tribune: Heavy as the death rate of July was in Salt Lake City, August is starting out even worse.

A Wood River, Idaho, prospector named Piper went in bathing a short distance from Hailey the other day, hanging his vest, which contained \$1,700 in greenbacks, on a tree. While he was in the water thieves captured the treasure.

At Bowie Station, Arizona, recently, Messrs. Molstead, Larremore and McParrar were suddenly taken sick. Molstead died next morning; and that evening Captain Tevis and Messrs. Hines and Oakes fell sick. The third day McParrar and Larremore died and afterwards Tevis died. Others are lying at the point of death. The theory entertained is that it was caused by eating diseased canned goods.

The Pretoria Convention between England and the Boers was signed Saturday.

The release of John Dillon was celebrated last evening at Lawrence, Mass., by a mass meeting on the common.

Ancient Man in Russia.

The discoveries of remains of paleolithic man in Russia, says Nature, continue to be most interesting. Recently M. Shapronikoff discovered a great quantity of stone implements in the district of Valdai, where a forest has been cut down and the wind has denuded the sand of the subsoil. The implements belong to four categories: One, knives and saws similar to those of Mouster, St. Acheul, and Solutre, more perfect than any found previously; two, the same in miniature, most accurate, and made of the finest kind of flint—they might have been used as ornaments, or for tattooing; three, figures of animals and men made in flint, and relief pictures of the same also in flint; four, ornamental designs on stone. The collection is very rich, especially in miniature implements.

No Good Preaching.

No man can do a good job or work, preach good sermon, try a lawsuit, will, doctor a patient, or write a good article when he feels miserable and dull with a sluggish brain and untidy nerves. And none should make an attempt in such a condition when it can be easily and cheaply removed by a little box of Bitters. See other column.

W. W. Hobart of the Eureka Leader went to San Francisco last night. He will be absent at least three weeks.

## A Funny Man.

The mortality among humorists has been very great, but some still linger. One of these hailed a reporter this morning and paid his subscription.

"I want the paper to come right along," said the good humored man.

"You find it pretty readable then?"

"Well, not so much that, you know, but if I didn't have it, you see, I could never tell when Phi. Bates comes to town."

Then the brilliant humorist laughed. Phi is in again.

## Important to Wood Dealers.

The cold season is approaching, and everyone will want some wood and some cable coil (nine plugs for \$1 at Neaby's bazaar). The thermometer at 9, 11, 1 and 3, was 84, 87, 89, 89.

## NEVADA STAR ROUTE.

How the Reno and Susanville Mail Service Was Expedited.

The reports of the Star Route investigation, now being made public, show some of the routes from Nevada to points in California and Oregon were expedited and the pay increased for the benefit of the Ring. The route from Fort McDermitt to Canyon City, Oregon, through a sparsely settled country, in which there are only two postoffices, was expedited at a cost to the Government of about \$30,000 a year. The Ring received \$70,000 per annum for the service, from which they realized \$39,000 in clear cash, as they sub-let the contract for \$30,000.

Another route, that from Reno to Susanville, with three intermediate postoffices, had a service of six times a week. According to the advertisement of the Postoffice Department, it cost \$4,000 a year to run it. Of the eleven bidders, V. H. Pease was the lowest, at \$4,300 a year. His bid was accepted, to take effect July 1st, 1878. In June of that year he sub-let the petition to J. W. Parker, who sent a petition to Washington, asking that the time be expedited from 24 to 18 hours, the distance being 92 miles. This proposition was indorsed by Senator Jones, and the route was expedited and the pay doubled. This did not begin to satisfy the contractor and his associates in the Ring, and he made it appear to General Brady, who had the letting of the mail contracts, that he meant a reduction of schedule time to 36 instead of 18 hours. As Brady shared in the spoils—he being a silent partner in the Ring, and only wanted a pretext to increase the pay on all the routes in which his associates were interested—he increased the pay to \$11,752 85 per annum, of which, of course, he received his pro rata.

## K. of P.

The Grand Lodge, K. of P., yesterday elected the following officers for the ensuing term: Supreme Representative, C. C. Powning, of Reno; Grand Chancellor, Geo. H. Morrison, of Gold Hill; Grand Vice Chancellor, Jas. T. Davis, of Reno; Grand Prelate, G. J. D. King, of Virginia; Grand Master of Exchequer, J. M. Flannagan, of Reno; Grand Keeper of Records and Seal, P. B. Ellis, of Carson; Grand Master-at-arms, W. M. Johnson, of Virginia; Grand Lunar Guard, H. M. Monk, of Virginia; Grand Outer Guard, L. M. Calmer, of Virginia.

N. W. Roff was appointed Deputy Grand Chancellor of Washoe county. The Grand Lodge selected Carson as the place for holding the session next year.

## Another Premium.

The men are not to be allowed to monopolize the racing this year. R. E. Ross, of Long Valley, is the founder of a purse for a ladies' race. This will no doubt become a feature of the Fair. The race will be free for all horses that have never run in a race, single dash of one mile. The first lady under the wire will get \$30, Mr. Ross' gift. The second will receive \$10, the gift of W. H. McGinnis. These amounts will no doubt be increased by the Society.

## Railroad Chances.

Mr. James Griffen, from the Humboldt Division, succeeds Mr. Swain as road master here. Both gentlemen were in town last night, and this morning left on a hand car to inspect the road. The division which Mr. Swain has been appointed to, extends from Oakland to Sacramento on the main line. He starts away Thursday.

## The Royal Bengal.

At Schooling's store there may be seen a painting of three tigers in their native jungle. The work is by McClellan and in his best style. It reminds one of the Pharaoh tiger who is supposed to live in back rooms and live on hired men. The picture is certainly a very fine piece of work.

## Mountain Passes.

The altitude of the most accessible passes over the Sierra Nevada are as follows: Summit station, C. P. R. R., 6,983 feet; highest point on Placer-ville road, 7,397 feet; on the Amador road, 8,634 feet; on the Big Tree road, 7,630 feet; and the Sonora and Mono road, 9,660 feet.

Wm. Goeghel, the leading jeweler of Reno, carries a heavy stock of elegant jewelry, watches, clocks and silverware. All goods are strictly warranted as represented. Lowest prices. Call and see them before you buy elsewhere. Store on Virginia street, angle

## AN EXCITING RACE

The Constable of Cherry Creek on a Run After a Horse Thief.

Division Superintendent W. J. Townshend, of Gilmer, Salisbury & Co.'s stage lines, relates to the Eureka Leader the particulars of a very exciting chase after a horse thief which he and other passengers on the Cherry Creek stage witnessed on Saturday. A Mormon named Walker stole four head of horses belonging to a former near Cherry Creek and started west with them Saturday morning. He was followed by the Constable and owner of the stock, and the two in hot pursuit passed the stage a few miles this side of Egan Canyon. Shortly after passing the stage they came in sight of their man and a chase ensued. Mr. Townshend says it was the most exciting race he ever saw. The thief was well mounted, and as soon as he discovered that he was being overtaken he put his horses down to their best. He rode down one horse and changing his saddle to one of the others, he abandoned the three he was driving and lit out on a dead run. His pursuers followed him as hotly as possible, and after running him for about twelve miles, his horse failed and he took to the sagebrush aloft. When the stage arrived at the point where he dismounted, they found the Constable and his assistant circling a clump of brush and cedars in which the thief had hid, and endeavoring to run him out. The stage passed on a short distance to Thirty-mile Springs, and soon after the Constable arrived with his man bound and handcuffed. Mr. Townshend says that for full twelve miles the stage kept the pursued and his pursuers plainly in view, and the run was better than any crack race he ever attended.

## Goodyear Rubber Co.

Attention is called to the advertisement of this well-known firm which appears to-day. They are the largest rubber dealers in the world; consequently they have the means to furnish goods at the lowest prices and shortest notice. They have a factory in San Francisco, where they are able to make any size car springs, valves for steam, hot or cold water, and to make all styles of rubber goods. Parties wishing the best rubber boot made should buy the crack-proof, which is known to wear twice as long as any other. Their rubber belting, packing hose, clothing, etc., has the best reputation of any manufactured, and if you want durable rubber goods, ask for Goodyear's.

## Nevada and Oregon.

The Nevada and Oregon have located their machine shops and round house in Evans' Addition. The lumber has been ordered and the building will be commenced without delay.

Yesterday afternoon the Santa Cruz pushed the first load of ties and rails over the new road. The directors and their friends celebrated their arrival at the sixth mile by the usual champagne ceremony. Conductor Kendall says he has run passenger trains over a great many worse roads than the N. & O. He thinks the grade good, and the work has been well done.

## Superior Workmanship.

at moderate rates is guaranteed by Wm. Goeghel, the leading watchmaker and jeweler of Reno. He warrants all his work for twelve months, and makes a jewelry description to order at his store on Virginia street. aug 10-11

## Notable Visitors.

Ex-Attorney General Charles Devens and daughter, of Boston, Massachusetts, were at the Depot Hotel last night. They have been visiting points of interest on the coast. The stage capsized between Glenbrook and Carson but the passengers were uninjured. Hank Monk's luck holds out well.

## Competition.

Wheeler, of Carson, has put on a fast-freight line to haul goods to Bodie and Aurora at lower prices than the line via Hawthorne. He quietly secured contracts from the merchants before he made any stir. The railroad is squirming considerably over it. Mr. Yerington went to Bodie yesterday.

## Robbery.

Charles Becker's saloon, on Commercial R. W., was burglarized last night. The thief effected an entrance by breaking a pane of glass and raising one of the back windows. He secured about \$8 in silver, two pistols and one-half a box of cigars.

## Police Court.

Ed Perman plead guilty to disturbing the peace yesterday, and was sentenced to five days.

## RAILWAY BUILDING.

A Salt Lake View of the Utah and Nevada Extensions.

The Salt Lake Tribune has a lengthy article devoted to the railroad boom in the great West. Speaking of matters that more intimately concern the people of this section, it says:

The extension of the Utah & Nevada narrow gauge to Eureka will probably not be made this year, but that it will be made before long is certain. The sooner the better, for it is an important move for the interest and prosperity for Salt Lake City.

The Denver & Rio Grande are literally occupying the central part of Utah, and are rushing their road in hand-some style. Next season will, we trust, see this strong company with its main line completed to the city, and its branch to Park City finished. With respect to the later, we hear that all agreements have been removed, and that all the work can go on as swiftly and steadily and agreeably to all.

We hear nothing further about the direct southern extension of the Utah Central. It has been announced that the survey is proceeding, but it seems likely now that nothing more than a survey will be attempted this year.

## The Comets.

Three comets are now walking the night and hanging around our legitimate pathway. Encke's comet is the latest arrival. It will appear and be visible by telescopes about half-past 2 o'clock in the morning. It is a little north of the Pleiades. It becomes visible to the naked eye sometimes, and will, probably, about the middle of October next. This little comet will travel north very fast, reaching its most northerly point on the 26th of September. Its perihelion passage will be about November 15th, and it will be nearest to the earth about October 11th. Comet "C" is becoming brighter every morning, and the astronomers think it would be visible to the naked eye now if it was not so near the horizon. The old comet "B" is fast traveling north. It is still an interesting object in the evening sky. Encke's comet is regarded with great interest by astronomers on account of its gradually shortened periods, which is considered as proof of Encke's theory that there is a resisting medium in space. Its period is about three and a half years.

## A Cog Railroad.

The Sierra Lumber and Flume Company has a railroad 4,000 feet long from the shore of Lake Tahoe to the mouth of the tunnel through the eastern summit. The cars are hauled up by a wire cable, but it is found that the clutch is not certain, and 7 cars have run away and been wrecked. To prevent this the company is putting cogs and ratchets in the middle of the track the entire distance. The cogs are four inches apart and the dog or ratchet will trail behind the car, dropping against the cogs all the time. So if a car gets loose it can only drop four inches.

## Prudent Carson.

To save the expense and waste of water, the Carson Water Company turns off the water at night. They pretend to keep a man at the head to turn it on in case of fire, but it is usually half an hour before the water gets down. McGee's saloon and Kline's restaurant got on fire yesterday morning early and they burned away 20 minutes before any water was thrown. If there had been a wind the Ormsby House would have gone.

## Jottings.

Fine lot for sale, apply at this office. See 50-cent column.

A. J. McNeil, a Nevada man, died in Phoenix, Arizona, last week.

Tom Hymers did not give this paper an item to-day as he promised. Therefore news is scarce.

The east bound overland train left Sacramento two hours late last night. Made up thirty minutes before arriving here.

## Returned.

The north gate was left open last night and Wells Drury blew in from Oregon. He has been gone two months and looked like a thoroughbred Web-foot. He eats nothing but mutton and wears a sheepskin jacket next his person. He bleats admirably of the north. Went to Virginia to-day.

## Selling Its Engines.

The V. & T. had 24 engines to run its road, but it finds 5 or 6 sufficient now. It sold one, No. 3, last winter to the Canada Pacific. Yesterday it sold Nos. 6, 10 and 15 to Villard's Oregon road for \$9,500 apiece.

You avoid all further trouble and expense by having your watch repaired at "Goeghel's" on Virginia street. Living prices only. aug 10-11

## BY TELEGRAPH.

### Premier's Visitors.

New York, August 9. Besides the Duke of Argyll and the Earl of Aris and his son, Lord Ogilvy, who will visit the United States this month, John Walker, proprietor of the London Times, will shortly come, staying until October. After visiting Long Branch and Newport he will go to California. All accounts represent the number of English visitors to this country next fall as very large. The Earl of Dunraven expects to make a tour of this continent, and hundreds of others of less note. A correspondent reports that from now till the end of October no outward passage is to be had on any of the steamship lines for love or money.

### The President.

CHICAGO, Aug. 9. An Inter-Ocean Washington special says. The President has had continued high fever, varying very little up to 12:30 P. M., at which time his temperature is 99.7, as compared with 99.8 this morning. His pulse is now 104 and was 98 this morning; respiration 19. At both examinations the patient's symptoms are according to Dr. Agnew's predictions last night.

### Suicide of a Supreme Judge.

PITTSFIELD, Mass., August 9. Judge James D. Colt, of the United States Supreme Court, committed suicide in his private room to-day, sending a pistol ball into his head. His health has been very bad lately.

### He Can Afford It.

NEW YORK, Aug 8th. The notorious "The" Allen married yesterday a refined and handsome young girl worth \$442,000, and will reform, he says. He was divorced a few weeks ago.

### The President Worse.

SAN FRANCISCO, Aug 10. The President was worse this morning. Pulse 110, with high fever.

### Haverly's Success.

Concerning an appearance of the original "forty" in Chicago, the Tribune said: "There were very few vacant seats at Haverly's last night. The original Mastodons made their reappearance, and the favorites of the admirers of minstrelry—Billy Rice, Billy Emerson, and all the other Billies—were royally received. They give a great show. There is quantity enough to please the most ardent, and the programme, varied and well selected, is presented with snap. There are never any waits. The audience sees something going on continually.

In the first part, of course, there are the usual songs about lacerated hearts, empty cradles, and damp graves, but they are interspersed with ballads on more cheerful themes. Mr. J. W. McAndrews, "the watermelon man," who made such a hit in England, had his share of the enthusiasm, and it was a large one. There are a large number of clog-dancers, most of whom are ornamented with a variety of medals, nickel plated belts, and other souvenirs of contests with rivals in this intellectual line of business. There are also a number of banjo soloists, and there are stump speakers, and other entertainers—all the very choicest flowers of minstrelsy.

### Died in Poverty.

Old residents will remember Harry Black, who once kept saloon where the Palace Hotel now stands. During his residence here he was injured by a bale of hay that fell on him while entering the door of Hammond & Wilson's stable, which crippled him badly. He died recently in California, where he had gone. He had no means and was a resident of the county poor-house. It is supposed that he drowned himself.

### California Bullion.

The semi-annual report of the production of precious metals in California for the six months ending June 30th, prepared by John J. Valentine, of Wells, Fargo & Co.'s Express, is as follows: Gold, \$9,418,378; silver, \$298,264. This rate continued during the remainder of the year, would give the largest production since 1874.

### Encouraging.

The ranchers report that the hopper situation is good. The six-legged pest seems to have more natural enemies than he can handle and the probabilities are that next year will witness a scarcity of hoppers. There has been very few eggs laid, and if the weather is equally favorable next season the hay crop will be enormous.

# It is Very Hot.

James Craig, who keeps a toll-bridge in Virginia, has escaped a frightful death by the exercise of his inventive faculties. During the recent hot weather everyone who crossed at the bridge to pay the toll thoughtlessly observed, "Ain't it hot?" In addition to the war and tear of his ears, Mr. Craig soon discovered that his voice was growing feeble, and the exclamation being uttered in the form of a question, naturally required that an answer should be returned. Having kept count for several days he found that the interrogation was uttered and answered 725 times daily, on the average, and perceived that he should soon talk himself to death. He therefore determined, while reason yet remained, to avert the impending catastrophe. He accordingly painted and hung up in plain view a sign which reads, "Yes, it is very hot."

## De Lesseps' Luggage.

M. D. Lesseps is soon to return to Panama, in high spirits at having "three great irons in the fire." By this he means the fresh-water canal to Port Said, Corinth and Panama. M. D. Lesseps is one of the wisest travelers—through life he has made it a rule never to be encumbered with luggage. Two suits of clothes, one for evening and the other for changing if he gets wet, some flannel underclothing and socks and handkerchiefs, are all he takes with him. Shirts are bought as they are wanted on the journey, and the soiled ones are thrown away. Courier and valet the clever engineer abjures.

## Rescued From Death

William J. Connelley, of Somerville, Mass., says: "In the fall of 1885 I was taken with a severe cold, followed by a severe cough. I lost my appetite and flesh, and was confined to my bed. In 1887 I was admitted to the Hospital. The doctors said I had inflammation in my lung as big as a half dollar. A time a report went around that I was dead. I was up and about in a few days, and I was cured. I will now tell you how I was cured. I took WILLIAM HALL'S BALM FOR THE LUNGS. I got a bottle, when to my surprise, I commenced to feel better, and in a few days I was cured. I feel better than for three years past. I will now tell you how I was cured.
